BRANFORD COMMUNITY FOUNDATION, INC. NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 — SIGNIFICANT ACCOUNTING POLICIES:

<u>Description of entity</u>: The Branford Community Foundation, Inc., was established in 1980 to benefit all residents of the Branford community in charitable, educational and scientific endeavors.

<u>Basis of accounting</u>: The Foundation prepares its financial statements on the accrual basis of accounting whereby income is recorded when earned, rather than received, and expense recorded when incurred rather than when paid.

<u>Unrestricted net assets</u>: All net assets are classified as unrestricted as there were not donor restrictions placed on gifts when made. Assets designated by the board of directors are classified as unrestricted as the board may alter its own restriction.

<u>Temporarily restricted assets</u>: These are funds which are given with the stipulation that the funds be used for a specific purpose which has not yet been completed. Upon completion the restriction is lifted.

<u>Permanently restricted assets</u>: These represent funds, generally endowment type funds, which are designated for use of "income only" with principal use prohibited.

<u>Income taxes</u>: The Branford Community Foundation, Inc., is exempt from Federal Income Taxes under §501(c)(3) of the Internal Revenue Code, therefore, no provision is made for taxes.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions. This will affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results

Reclassifications: Certain amounts in the prior—year financial statements have been reclassified for comparative purposes to conform with the presentation in the current—year statements.

NOTE 2 — INVESTMENTS:

The Foundation reflects investments at market value in its financial statements where unrealized gains and losses are aggregated with realized gains and losses on the statement of activity. Realized and unrealized losses are as follows:

	<u>2011</u>	<u>2010</u>
Realized net gains	\$ 13,723	\$ 1,103
Unrealized net gains (losses)	 (85,860)	 122,264
	\$ (72,137)	\$ 123,367

2011

The cost vs. market value of the investments categories is as follows:

NOTE 3 — FAIR VALUE MEASUREMENTS:

The Foundation's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3, continued:

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Foundation uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Foundation measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Foundation.

Level 1 Fair Value Measurements: The fair value of mutual funds is based on quoted net asset values of the shares held by the Foundation at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.
